### **GAVESHANA 2013**

Gaveshana 2013 - Three day workshop on Update on Research Methodology, Manipal University is a renowned Centre of Excellence in teaching and providing quality medical services in India and other parts of the world. Manipal University is the personified ecosystem of perusal, precept and pertinent research is dwelling of over 20,000 students from about 52 countries, around 2400 faculties, copious employees etc. The Department of Ayurveda was started in 1984 with a view to provide Holistic medical care along with promoting the scientific research in Ayurveda. Man has always been an adventurous animal due to which he was successful in embracing numerous techniques during his combat for survival in the universe. Ayurveda, the science of life has also imbibed these adventurous qualities from the beginning. But as the medical world is rapidly changing to evidence based medicine, it becomes every Ayurvedic physician's duty to showcase the science under the limelight of

research so that in a true sense Ayurveda can become a global health care system. This three day workshop on Research Methodology is planned to highlight the importance of scientific research to Ayurvedic scholars, interested teachers and people working in Ayurvedic Pharmaceutical industries.
